SB Activities Advanced

Module used by leading school groups all around the world

Save paper, save hassle, save hours and days of your time

We know what a headache you have managing after school activities. This is why we have worked closely with our fantastic school member clients to produce a perfect, workflow that will automate all stages in the activities management process and save you hours, days and sometimes weeks.

Activity Clubs Registration Forms

Eliminate paper forms with our digital activity request forms. Give clubs a name, description and mark which years and gender they are available for.

Parents then fill out our simple request form based on their child's profile.

SB Activities Advanced eliminates receiving multiple forms for the same user and makes it impossible for parents to choose the wrong club.

Receive Registration Forms

Once parents make their selections these are automatically populated into the staff activities module in real time.

Incredible Allocation

Read this slowly – one click allocation of all pupil selections will simply amaze you.

You read that correctly, our unique algorithm allocates all pupils their preferred groups with one click. Turn a process that took many, many hours into a 60 second process.

Auto Confirm to Parents

When ready, generating your events will automatically inform parents of their allocated activities via e-mail and push notification as well as populating their events diary.

SB ACTIVITIES ADVANCED - FEATURE SET

Not only that but generating events has two further fantastic benefits:

Automated Registers

Generating events automatically creates registers which can then either be taken electronically, or on paper if you must print them.

Automated Billing

As if this wasn't enough for your paid clubs, with one click you can bill all of your parents for the clubs that they have been allocated. They are informed via e-mail and push notification, and they can log in to SchoolsBuddy and pay their bill electronically.

Summary

We promise we will give you back hours, days and sometimes weeks with our advanced activities module.

Our workflow automates the processes we have described above to eliminate headaches for you.

In addition, we welcome your feedback and love hearing feature suggestions from you – our valued member schools.

Advanced Feature List

- Join Requests (allow students to request to join groups mid term)
- Re Submission of selections (optional, only one entry received per child)
- Max/minimum places per activity
- Parents and / or pupils (age dependent) can select and confirm
- Block dates - generation of club events are skipped for blocked dates
- Preference and First Come First Served
- Pre selected groups option (e.g. elite/representative sports teams)
- Copy groups - set up programs in minutes

User Quotes

"A teacher just came bouncing into my office saying 'I love this new system', just thought I would share"

Derek Davies, Athletic Director - Keystone Academy, Beijing

"SchoolsBuddy has proven to be a comprehensive system for us and made the coordination and allocation of our ECAs and our sports teams a simple and effective process. The friendly interface and simple setup has saved me time and the ongoing assistance has been invaluable"

Dan Tauroa - Co-curricular Head, GEMS World Academy, Singapore
