SB Bookings

Flexible bookings module for wrap around care, lunches & more

Bookings that don't get lost

Our booking system is fully integrated with our core events and payments modules. When a parent or pupil books an event the pupil will automatically be added to the attendee list and the relevant attendance registers. The diary of the pupil and parents are updated automatically with the event or events.

Automatic communications

As with all parts of the SchoolsBuddy system the communication flow to parents is automatic. The booking confirmation is sent via email and, unless the fees are required up front, these are added to the balance of the pupil. Their SchoolsBuddy balance is updated immediately. Don't waste anytime double entering anything with SchoolsBuddy.

"After school and breakfast clubs bookings took me the majority of my day, in addition invoicing parents was incredibly time consuming!! Now apart from the odd parent question or booking query, SchoolsBuddy has revolutionised this process, and now no longer impacts my day at all!"

Jodie Oliver, School Administrator, Hilltop Primary School

No more double bookings

The booking stays within SchoolsBuddy so there is no way parents or pupils could ever double book a care club or lunch booking.

Block bookings

Setup either individual sessions or block bookings. Block bookings can be simple consecutive days for a half term holiday club or every Monday evening for a term - whatever fits your activity the best.

The screenshot shows the 'Lunch Bookings' page in the SchoolsBuddy system. It includes a navigation menu, a search bar, and a table of existing events. A detailed view of a booking for 'Hot lunch - Mon 10 Jul 2017 12:30' is shown on the right, listing attendees like 'Davies, Sofia' and 'Watson, Sebastian' with their status and year.

SB BOOKINGS - FEATURE SET

No more accidental bookings

Only groups for which pupils are eligible are visible to book onto. So a Year 3 and 4 care club will only be visible to the parents of pupils in Years 3 & 4 even if those pupils have siblings.

Limit the number of places

Once the number of places has reached its maximum the activity will simply show as full and no more places will be available.

Manual booking override

If your places are full staff can still manually book a pupil onto the booking through the admin section.

Automatic attendance registers

As with any other event in the SchoolsBuddy system the list of attendees is clear and ready for an attendance register either using our mobile app, via the web or to print as a paper register for entering later into the system.

Fully integrated with SB Payments

Once events have been booked and paid for parents can always go back in and check past payments or clear down any outstanding balances using the SB Payments module.

Flexible payment requirements

When configuring your bookings you can be flexible with the amount required to be paid upfront, anything not paid up front will be added to the pupils SchoolsBuddy balance for later payment by the parents.

Parent quote

"LIFE CHANGING"

"I love the app, as a working parent I have found the app almost life changing for managing my child care needs, newsletters and my sons class activities, I love how all the information is in one place and it has a calendar so I can see what I have booked for the coming week. It's a fantastic tool for parents to be kept informed by the school."
