OVERVIEW

SchoolsBuddy:

Web & Mobile Software for Extra Curricular Activities Management, Safeguarding, Payments & Parent Communications

EveryBuddy Ltd is the developer and provider of SchoolsBuddy. Since our launch in 2013 we have school users in over 15 countries using the SchoolsBuddy solution to save hours of admin time and to reduce the number of systems that both staff and parents need outside of the school MIS / SIS.

The solution works for every type of school both locally and globally. From your village primary or junior school, through the age groups to full K12 international schools.

Ultimately the difference that SchoolsBuddy makes is driven about its unique event based system. Everything within the system is an event and allows for parent consent to be requested, attendance to be recorded, communications to be made or fees to be collected all from the same system often without the need for manual intervention.

Customisable | Localisation | Integration

We work with you to make the perfect solution for you and your school. Responsive development teams and support around the clock to ensure complete satisfaction.

Customisable. Colours, labels, custom data forms. It's yours and we want it to be as familiar as possible.

Localisation. We can offer multiple language options to enable your parents to fully engage with SchoolsBuddy.

Integration. Painless integration with most SIS / MIS systems either directly or via our integration partners which include SchoolMessenger (US & Canada), ISAMS, Wonde, Groupcall and more.

MODULES

SB EVENTS (ACTIVITIES, SPORTS & TRIPS) - CORE

Manage any type of event; sports fixtures, school trips, assemblies and more. Parent consent, availability, selection, cancellations, results & stats. Manage on the move with our advanced iOS organiser app.

SB MESSAGING (PUSH & SMS)

Send messages at any level; whole school, year / grades, groups or just to those attending a specific event. Send via push notification to our iOS and Android apps or for emergencies use SMS.

SB PARENT EVENINGS / CONFERENCES

Fully featured module allowing parents to book time slots based upon their profile. All slots that are booked appear in the relevant parent and staff member diaries immediately.

SB ACTIVITIES ADVANCED

For those with advanced after school activity programs. Setup preference or first come first served signups, communicate with parents, activities signup, allocate and notify in one click. All events populate the relevant diaries of users.

SB BOOKINGS

Create instant book signups and allow parents & pupils to book care clubs, lunches, tickets, trips, hoodies and much more. All populating the same personalised diary, while parents can view a history of payments and make payments online.

SB PAYMENTS

A payment system that is linked to events. For any type of event including trips, after school programs, tickets, clothing, lunches and more. Payments made in error become a thing of the past.

PERSONALISED DIARY (CORE)

The backbone to the SchoolsBuddy product and what makes us different is that each user has their own login to the system whether they are staff, parents or pupils (if required) and all events generated inside SchoolsBuddy will populate the relevant diaries automatically.

One personalised diary showing sports, activities, trips, care bookings, parents evening sessions and more....

SB SECURE CHILD COLLECTION

Is your safeguarding robust when pupils leave after school clubs? SB Secure Child Collection enables secure personalised PIN Code authorisation when pupils are collected. Secure and traceable with collection reports available.

SB REPORTS PRO

Core SchoolsBuddy comes with standard reports but if you want to reports specific to your organisation we can create those for you. SB Custom Data will need SB Reports Pro.

SB WHITELABELLED MOBILE APPS

As standard SchoolsBuddy has iOS and Android apps. Should you want the app to mirror your school branding we can create white labelled apps for you to allow you to impress your parents.

SB CUSTOM DATA

SchoolsBuddy works for you. We can create custom data forms enable your staff and or your parents/pupils to complete. Ideal for tracking, behaviour, surveys and more.
